## Projects

 DTC Documentation Roadmap Tracking

Project	Driver	Process	Status	Timeline	KR Action Summary	Justification	Metrics	Notes	Resources
Revise Docs Launch Guide	Jerome	Reviewable	Launch	2022 Q3	Revise contribution process documentation for current DevRel contexts and contributors and maintain current standards followed by sharing and presentation	Reduce impact on DevRel documentation contributions from repeated AEM actions, interference through multiple authoring projects, formatting troubleshooting, and package management	Reduce docs inquiries for support during launch process, improve self-guided contribution through existing documentation	8/22 - Sync with  on existing go/docslaunch content 8/23 - Discussion with leadership on adjusting prioritization and elevating importance 9/7 - Adjusting scope of doc to align changes to PE bandwidth	         
Docs as Code Backend	Jerome	In Progress	Build	2022 Q3 + Q4	Complete build and testing of functional Docs as Code proof of concept sample page using Markdown and scheduled or manually-run scripts for transformation to AEM, share	Consistency for contributing process from draft to production in documentation	Reduction in time for DevRel team contributions Complete accountability for parallel documentation work across contributors	7/19 - Q3 is PoC, complete transfer expected in Q4 7/26 - Assess design process integrations moving forward 8/3 - TwitterDev account permissions for Docs team	         

Tutorials, Information Architecture	Jerome	In Progress	Build	2022 Q4	presentation of updated contribution process to stakeholders			and dtd-docs repo 8/12 - Added initial commit to repo, building out file structure to mirror DTC on AEM 08/30 - MS Eng team pivot to manually or scheduled integrations 9/13 - Drafting presentation for current progress and steps for process with GitHub repo 9/27 - Presentation for review, pending screenshots and Eng updates 10/24 - Scheduling for presentation, MS Eng Team/Brand Digital support, egress proxy issues 8/2 - Launch Japanese tutorials through AEM update on Production 9/8 - Consolidated Tutorial feedback from Dev Advocate team 9/30 - Pivot from proposal to Jira epic for non-engineering solutions	
					Create proposal for revamping information architecture and template for existing content, categorizing pages with effective user journeys and paths, establishing documentation expectations for contribution	Match user expectations with relevant and up to date content throughout user journey spectrum	Increase DTC traffic on Tutorial pages for improved user feedback, increase activity with call to actionable items		
DTC Search Refinement	Jerome	Accepted	Design	2022 Q4	Create proposal for refining DTC documentation search optimization and results based on Digital team and AEM subject matter experts in addition to DTC stakeholders	Improve visibility and surfacing of relevant DTC content for developers taking advantage of powerful search functionality	Increase in engagement and elevate search results for v2 content while reducing v1.1 documentation use	08/31 - Sync with Mecca on SEO insights and potential sync with analytics and auditing	
DMs v2 Documentation	Jerome	Resolved	Launch	2022 Q4	Obtain documentation parity across v2 products	Maintain developer confidence in supported products and features from Twitter API	Reduce docs inquiries for support during launch process, improve self-guided contribution through existing documentation	10/21 - Public docs launch on 10/27	
Enterprise v2 Docs Launch	TBD	Resolved	Launch	2022 Q4	Obtain documentation parity across v2 and Enterprise products for launch and existing content	Maintain developer confidence in supported products and features from Twitter API	Reduction in Enterprise friction and feedback related to documentation	8/23 - Pending 9/13 launch 9/8 - Update to 9/20 launch	

API Reference Index Redesign	Jerome	Waiting	Research	2022 Q4	Update API reference index documentation design to modern industry standards for label designs and color coordination, complete proposal for broader scope of design improvements for DTC API reference index	Aligning the DTC site with Twitter design standards for more persistent developer experience	Improved visual accessibility with updated elements	7/8 - Scope creep for robust overhaul, realign on quick wins for updating labels and color formatting 08/06 - Pending follow up with Design on bandwidth and possible action items
Improving Use Case Pages, Organization and Structure		Waiting	Research	2022 Q4?	Build proposal for updated Use Case Twitter API navigation with improved categorization, topical affinity links to relevant documentation, and alignment with developer derived purposes	Drive future developer interest through aligning with industry and audience goals and contexts	Increase in new developer sign ups and inquiries	7/29 - Pending feedback from  on project bandwidth progress 9/6 - From Tiger team sync,  working with  on updates

Jerome's Food for Doc

07/25 [JOKE] - "I don't like Russian dolls. They're so full of themselves."

08/01 [FUN FACT] - Don't understand temperatures in Celsius? Here's a rhyme to help—30's hot, 20's nice, 10 is cold, 0's ice!

08/09 [JOKE] - "I used to teach kids only 25 letters of the alphabet. They don't know Y."

08/15 [FUN FACT] - Most green/red colorblind people think that Yoda® is a shade of brown.

08/22 [JOKE] - I once saw an actress with her eyebrows drawn too high. When she noticed, she looked surprised.

08/29 [JOKE] - "Cleaning mirrors is something I can see myself doing."

09/06 [TONGUE TWISTER] - "A proper cup of coffee for a proper copper coffee cup."

09/13 [FUN FACT] - More people lived in New York City in 1922 than people living in Los Angeles now.

09/19 [STORY] - Dentist: "When's the last time you flossed?" My friend Joey: "Bro, you were there..."

09/27 [BAD LYRICS] - "Little bo peep comin' out my stun gun."

10/24 [FUN FACT] - Gary Oldman is 13 days younger than Gary Numan.
